NETWORK WORKING GROUP
Request for Comments #95

NIC 5731
Steve Crocker
UCLA
4 February 1971

DISTRIBUTION OF NWG/RFC's THROUGH THE NIC

The Network Information Center (NIC), administered by Doug Engelbart at SRI, has established (or is establishing) lines of communication with all of the sites. The mechanism is for each site to have a Station Agent and a Technical Liaison Contact. The Station Agent maintains a small library of documents which arrive from the NIC. The Technical Liaison Contact matches requests from the network community to people or services at his site, and vice versa.

In my opinion, the current mailing list for the Network Working Group seems to duplicate in large part the NIC's distribution system. Therefore, I am making the following changes.

(1) Each site is presumed to have a Technical Liaison Contact. Where none has been appointed, the current receiver of NWG notes for that site will be assumed to be the Technical Liaison Contact. (Each site may change its Technical Liaison Contact by notifying the NIC.)

(2) NWG notes will be sent only to Technical Liaison Contacts and to those on the current mailing list who are not at a site.

(3) RFC numbers and NIC numbers will continue to be assigned by Jeanne North at SRI -- (415) 326-6200, ext. 4119, or use Enterprise numbers:

BB&N, CASE, HARV, LINC, MAC, CCA	Enterprise 0740
ARPA, MITR	Enterprise 1-0740
CMU	Enterprise 9074
ILL	Enterprise 1074
SDC, RAND, UCLA, UCSB, UTAH	Zenith 9-0740

(4) NWG notes may be sent to the NIC for distribution, or may be distributed directly. If an author intends to distribute an NWG note himself, he should so inform Mrs. North and obtain any changes to the mailing list. All mailing should be airmail or first class, depending upon distance.

Those on the current mailing list who are not at sites are

Alfred Cocanower
MERIT Computer Network
611 Church Street
Ann Arbor, Michigan 48104

MERIT
